## STOP-DWI NY REGIONAL TRAINING OPPORTUNITY

### Webinar Training

### Impaired Driving Training

From: Robyn Robertson, President & CEO, Traffic Injury Research Foundation

The NY State STOP-DWI Foundation, Inc., through funding from the NYS Governor's Traffic Safety Committee, is pleased to sponsor a statewide training to benefit local STOP-DWI efforts in New York State. This seminar is free of charge to all STOP-DWI partners engaged in preventing impaired driving.

The 4-hour impaired driving training to be delivered by the Traffic Injury Research Foundation includes the following topics:

1. Comparing the profile and characteristics of male versus female impaired drivers and examining self-reported impaired driving in the US in the past five years. The impact of the COVID-19 pandemic on this risky behavior will also be described.
2. Summarizing the latest international research on cannabis impaired driving, crash risk and the prevalence of cannabis alone, and the combination of other substances in fatal crashes.
3. Describing the latest research on the effectiveness of alcohol ignition interlocks in reducing impaired driving recidivism, crashes, and best practice interlock program features.
4. Reviewing research findings regarding the effectiveness of road safety campaigns including exploring their theoretical foundations, key features of effective campaigns, appropriate messaging for distinct audiences, and best practice dissemination strategies.

Robyn has led a wide variety of research projects across a broad range of topics. During her career, she has published more than 200 major reports and articles on diverse road safety issues in traffic safety, criminal justice and professional journals. With a focus on education, policy and program development and evaluation, she has made more than 250 presentations at criminal justice, traffic safety, injury prevention and research conferences.

She is coordinator of the Working Group on DWI System Improvements, a U.S. coalition of criminal justice professionals, representing 14 criminal justice organizations, and served as faculty at the National Judicial College in Reno, Nevada.

Robyn received her Master's Degree in Criminology and undergraduate degree from the University of Ottawa. Her professional training includes management, business administration, marketing and executive development courses. Robyn has nine years of experience in the academic field, teaching several criminology and criminal justice courses part-time as her schedule permitted at the University of Ottawa, and Algonquin College in Ottawa.
