The NY State STOP-DWI Foundation, Inc., through funding from the NYS Governor's Traffic Safety Committee, is pleased to sponsor a statewide training to benefit local STOP-DWI efforts in New York State. This seminar is free of charge to all STOP-DWI partners engaged in preventing impaired driving.

This course teaches officers how to utilize open-source information to help document the behavior of an arrestee in impaired driving cases. Officers will learn how to utilize information found on platforms such as Facebook, Instagram, Snap Chat, and Tik Tok to name a few. It features a section on how to properly build a fictitious profile on the platforms mentioned above to allow officers the ability to search on the platform without using their personal information. This course also covers how to build community relations using social media. The content of this course is structured for officers of all calibers who are looking to improve their investigations and bolster their case when testifying.
